When they brought me to the cellar I saw three dead male bodies. One was in a sitting position by the wall. Two others were young, one lying on his stomach, the other on his back. Their throats were cut and they were naked. The blood from their throats was dripping into the sewage drains in the floor.

Summary

This Report describes war crimes within the meaning of international law committed in eastern and southern Ukraine by soldiers and officials of the Russian Federation and by the pro-Russian separatist fighters. The crimes documented herein include unlawful deprivation of freedom, physical and mental tortures, robbery and murders.

Chapters 1 through 3 are of an introductory nature. They describe the methodology used by the authors of the Report and present the circumstances in which the subsequently detailed crimes were committed.

The locations and types of the crimes that were committed as well as their perpetrators are described in chapter 4. The authors discuss only those crimes they were testified to by the victims during the field research. More than 60 interviews were gathered in the course of collecting the materials for this Report. Each action described in chapter 4 is confirmed by a direct quote from the testimony of one or more victims.

Chapter 4 is divided into subchapters that correspond to each of the venues where war crimes have been committed, as identified by the authors of the Report. Most of those venues are in eastern Ukraine, one in Crimea and one in the territory of the Russian Federation, where the Russian army brought Ukrainian prisoners of war.

Chapter 5 is a catalogue of perpetrators of the crimes who were mentioned in the testimonies of the victims, including a short overview and references to the description of the venues where the crimes were being committed, and pictures.

The victims are not mentioned by name but by an assigned “C” (case) code names and numbers. Any personal data that could be used to identify the victims indirectly such as, for example, pictures, have been included only if a specific victim consented to the disclosure of his or her identity and spoke freely in the media.

The documentary evidence described in the Report will be submitted to the International Criminal Court in The Hague.

5. Perpetrators’ profiles
1. Objective and purpose of the Report
This Report is the result of examinations conducted by a group of volunteers commissioned by a Member of the Polish Parliament, Małgorzata Gosiewska [1].

The purpose of the investigation was to determine what if any war crimes or crimes against humanity, within the meaning assigned thereto under the Rome Statute, have been committed during the conflict in eastern and southern Ukraine in 2014, to document any such incidents, their victims and perpetrators and to subsequently submit any such collected materials to the International Criminal Court in The Hague [2]. On 8th September 2015, the Supreme Council of Ukraine submitted to the International Criminal Court in The Hague a declaration requesting an investigation of the crimes which have occurred within the territory of Ukraine since 20th February 2014 in connection with the armed conflict [3].

Our examination was limited to 2014, although the conflict continues. The fighting in eastern Ukraine, covering mostly the Donetsk and Luhansk oblasts, and the conditions in Crimea are referred to as “conflict” in the Report. The need to use a precise term is based on the varying definitions of the described events applied in global sources. In view of the widely known evidence, confirmed by the examination which forms the basis for the Report, the term “civil war”, which is frequently used in the global media, is incorrect. Based on the following, the conflict is in fact a war between two states:

- the involvement of soldiers of the Russian Federation, including heavy weaponry (tanks, artillery) deployed in combat in Ukraine;
- officers of the special forces of the Russian Federation interrogating prisoners of war and arrested civilians;
- Ukrainian prisoners of war being detained within the territory of the Russian Federation.

The argument that “there is no war since it has not been formally declared” is not valid. Otherwise it could be argued that the Second World War was not a “war”, because its commencement with an attack by the allied German army on 1st September 1939 and by the Russian army on 17th September 1939 was not preceded by a formal declaration of war. Similarly, the argument that no “state of war” was declared is insufficient in the polemics with the evidence of military action on both sides.

2. Methodology of gathering information
2.1. IDENTIFYING AND FINDING WAR CRIME VICTIMS

The first victims and their whereabouts were identified thanks to the personal contacts of the individuals involved in the work on the Report. Other contacts were established also through the identified victims themselves, who shared contact details of their fellow prisoners or acquaintances who they knew were also victims of the crimes.

Field work, including in the Anti-Terrorist Operation Zone or the "ATO zone", that is in the area directly adjacent to the front, allowed for direct contact with Ukrainian civil and military volunteers. That greatly increased the opportunities for reaching the war crime victims.

2.2. **INTERVIEWING VICTIMS AND WITNESSES, COLLECTING INFORMATION**

The principal evidentiary documentation for the crimes presented in the Report is comprised of victim or witness statements. Attempts were made to confirm the identity of the perpetrators in each and every case based on publicly available sources and with the assistance of Ukrainian NGOs and the Ukrainian administration.

The interviews were conducted with victims (former civil prisoners or prisoners of war) and with individuals knowledgeable about the conditions in the field. The interviews were mostly held in public places. Most of the interviews were conducted by Polish former policemen with long-term experience in crime investigation, who volunteered their time. Some interviews were conducted by Ukrainian volunteers assisting the Polish policemen. Basic personal data of the interviewees as well as the date and place of the interview were included in the Report.

![Victim C43 at a hospital after being freed](image1)

![Medical documentation provided by victim C7](image2)

The overview of the experience in captivity is preceded by a short profile of each interviewee’s social activities or military history prior to imprisonment. A detailed account of the experiences related with both the capture and imprisonment follows. In some instances the statements were supplemented with medical documentation provided by the victims.

5) [http://goo.gl/NiAua3](http://goo.gl/NiAua3)
6) Published with the consent of the victim C7
The documents recording the interviews have not been signed by the interviewees because the interviews were not classified as formal interrogations. With the safety of the victims in mind, the documents presenting the interviews and any identifying data of the interviewees are not attached to the published version of the Report, but are retained by the authors of the Report and will be delivered to the International Criminal Court in The Hague to allow for formal interrogation of those individuals by the Court interrogators.

In some instances, existing NGO Reports were used as supporting documentation.
2.3. IDENTIFYING WAR CRIME PERPETRATORS

One of the principal objectives of this volunteer effort was to establish the perpetrators of the crimes referred to in the Rome Statute. Usually, only the pseudonyms of the perpetrators were provided during the conversations with the victims. Often the victims were often unable to provide physical descriptions of the perpetrators, either because of the victims’ mental state related to tortures and constant fear for their lives, or because of the frequent practice of keeping the victims blindfolded in prison.

Vladimir Novikov pseudonym “Alabay” [7, 8]  

Following the interviews the authors of the Report attempted to identify the described individual perpetrators by obtaining data from official Ukrainian sources, by reviewing records of proceedings conducted in Ukraine or the records of NGOs examining war crimes, or public sources such as publications by the perpetrators themselves who often boasted of their achievements on the Internet.

Analysis of the materials gathered in the course of the interviews together with the materials sourced elsewhere allowed for identification of some of the perpetrators as they related to specific victims and crime venues.

3. Conditions in eastern Ukraine resulting from the conflict between Ukraine and Russia
After the bloody attempts at putting down the Ukrainian society’s mass anti-government protests known as “Maidan” in February 2014, in result of the emergency elections, the then president of Ukraine, Viktor Yanukovych representing the ruling pro-Russian Party of Regions abandoned his post, resulting in emergency elections. A new government headed by Prime Minister Arseniy Yatsenyuk was appointed and interim presidential duties were assumed by Oleksandr Turchynov. However, in the Luhansk and Donetsk oblasts, pro-Russian separatists staged an armed protest against the new government. With the military support of Russia they proclaimed those areas as the Donetsk People’s Republic and the Luhansk People’s Republic, and in May 2014 they proclaimed a union of both self-appointed republics into the Federal State of Novorossiya.

Separatist’s sentiments also manifested themselves in the Crimea Peninsula, which quickly saw a military intervention of the Russian Federation. During that intervention, a declaration of independence of the Republic of Crimea was adopted in March 2014 during a session of the Supreme Council of the Autonomous Republic of Crimea and the Municipal Council of Sevastopol. On March 16th a referendum on the status of the republic was held, and on the 17th of March the Supreme Council of the Autonomous Republic of Crimea adopted the resolution on the independence of Crimea based on the results of the referendum in which they concluded the majority of voters supported the annexation of Crimea and Sevastopol to the Russian Federation. In the course of the following week an agreement on the annexation of Crimea to Russia was signed by Russia with the Republic of Crimea and the separate city of Sevastopol.

13) http://goo.gl/VrvVQX
In light of the military occupation of the above-mentioned regions of Ukraine by the Russia-backed separatists, on 13th April 2014, the acting president, Oleksandr Turchynov presented the separatists with a 24-hour ultimatum, requesting they surrender in exchange for avoiding punishment. The separatists ignored the ultimatum and started to take over government buildings in the territories of the self-proclaimed republics. Consequently, the National Security and Defence Council of Ukraine resolved to commence the Anti-Terrorist Operation (ATO) by the army.

The separatist militias operating in Donbass have never been a homogenous nor coordinated force. Divisions among the separatists were based on conflicts between the leaders and commanders of the various groups. Among the sources of conflict were different understandings of the objectives of the actions of such groups, different attitudes toward the arrangements agreed upon with the Ukrainian authorities, and mutual violations of different groups’ spheres of influence. Based on analysis developed by the INSIDER portal [16, 17] the areas under command of the forces fighting in Donbass on the part of the separatists are presented below, including the profiles of the specific troops and their commanders.

The Report presents conditions existing until October 2014.

Crimes

The prisoners were intimidated and beaten with clubs in the presence and with the participation of Alexandr “Chorny” [93].
Victim C7 testified as follows:

There was “Chornyy” [93] and several soldiers. He started to beat me all over my body with a truncheon, and the others started to hit V. M. [94] who was also brought to that room. At a certain point, one of the soldiers told “Chornyy” [93] to be careful, because of his recent stay in the hospital, and his back will ache. I told him then, “Sasha let somebody else do it so you will not get hurt”. He then gave the truncheon to a young soldier (of approximately 25) who started to hit me with that truncheon on the head.

The prisoners were put on public display, driven around town and submitted to moral harassment.

The prisoners were put on public display when separatist militia drove them into town to be paraded before local residents, submitting them to psychological abuse and humiliation.

Victim C7 testified as follows:

- **Prisoners**

Prisoners of war, mostly from the volunteer “Donbass” battalion and the 81st Aeromobile Brigade, the “Cyborgs”.

- **Conditions of detention**

The prisoners were kept in a cellar unfit for the purpose of holding prisoners. There were some 100 people confined in a small space, making it impossible for everyone to lie down at the same time. Two holes dug out inside that room by the prisoners themselves were used as a toilet. There was only one sink in the room for that many prisoners.
Victim C18 testified as follows:

> Over a hundred people were locked in that basement. We had one sink and at first one, then two holes that often got clogged, serving as toilets.

The prisoners were given food irregularly and in small quantities.

Victim C4 testified as follows:

> We were starving all the time – we were given 1/10 of a loaf of bread twice a day and a ladle of some inedible muck.

**Crimes**

The prisoners were intentionally deprived of sleep.

Victim C9 testified as follows:

> The overseers came in from time to time and we had to get up.

The prisoners were often beaten unconscious with hands and various objects.

Victim C9 testified as follows:

> Then they dragged us all out of the cellar and beat us with a baton on our shins for about an hour.
Victim C18 testified as follows:

Some prisoners were beaten up. One of the most severely beaten was our officer ps. “Siemiorka” [98] (...) On that day and for many days after that he was tortured so severely that he could not walk.

Victim C8 testified as follows:

During the first month and a half of captivity they beat me using their fists, feet and batons. When I would lose consciousness, they would pour water on me and continue to beat me. Usually they beat me for 4 days which was followed by a two-day break. During the breaks they suggested that I change sides, but I kept on saying that I had sworn fidelity to Ukraine.

The beating often resulted in permanent body damage.

Victim C8 testified as follows:

I could not walk. I was beaten up so badly that I just lay there and could not stand up. My legs were swollen and I still have to go to physical therapy to this day. After my release I spent six weeks at various hospitals.

Victim C4 testified as follows:

We were beaten with fists and batons and kicked with military shoes – some guys had broken ribs and urinated blood.

The prisoners from Donetsk and Luhansk and the officers were subjected to exceptional harassment.

98) Reference is made to Dymitr Kulisz (Кулиш Дмитрий), a volunteer from the Donbass battalion
Victim C4 testified as follows:

"The most beaten were the guys from Donieck and Luhansk as well as the officers. Some of them had to be carried out of the interrogation room, as they couldn’t walk on their own no more."

Pneumatic guns were used to shoot at the prisoners as part of the “entertainment” for the separatists.

Victim C9 testified as follows:

"They have also fired at my hands with an air gun."

The prisoners were tortured by being forced to perform strenuous physical exercises.

Victim C4 testified as follows:

"They took us to the corridor and ordered to perform 500 knee bends and then, when the muscles were very tired and tense, they beat us with batons on our legs."

Victim C9 testified as follows:

"After some time, they invented a game in which they made us perform 1000 knee bends and other strenuous exercises. They called that “practicing physical culture”."

Besides being abused physically the prisoners were put under mental pressure.
Victim C9 testified as follows:

They spread out the Ukrainian flag and ordered us to tread on it. Anyone who refused was beaten.

The prisoners were humiliated by being driven around Donetsk, after publication of the information that they were responsible for shooting at civilian targets.

Victim C38 testified as follows:

A few hours later we were loaded up on the trucks and driven all over Donetsk to be shown off to the local population. Everything was taped by Russian journalists. We were cursed, beaten by the locals and they’d throw at us anything they could get their hands on. Local citizens were convinced that they had been under fire from the Ukrainian Army earlier.

http://goo.gl/nQZCjL
The prisoners were used to do work such as cleaning debris and collecting the bodies of the killed. They were also sent to areas which were suspected of having previously been mined.

Victim C38 testified as follows:

\[\textit{From then on they started to use us to bury the dead bodies, to clean debris, to collect scrap, etc. After 7 weeks, I remember exactly, they took us to Donetsk Airport to clean up, that is to remove the bodies that remained there after the fighting. They hadn’t done it before because they were afraid of the land mines.}\]

Interrogators were looking for mortar and heavy machine-gun operators (…)

Crimes

The prisoners were used for political purposes.

Victim C42 testified as follows:

*Boroday [55] was angry with them that I was in such a state “that he could not take me in that condition to Moscow”. As I understood the plan was to have me prosecuted in Russia just like the case of the Ukrainian pilot, Nadia Savchenko [127].*

The prisoners were also exchanged for ransom and they were forced through beatings to indicate who could pay such ransom.

Victim C42 testified as follows:

*During the conversation with him, which lasted for up to 15 minutes, the people in the balaclavas continued to hit me on my hands with a gun. When it became apparent that I was not fit for a court case, he tried to get money out of me asking me who would be willing to pay one million dollars for me.*

The prisoners were beaten every day during the interrogation. The perpetrators beat them with metal rods.

Victim C3 testified as follows:

*During the interrogation I was continuously beaten with, among others, metal rods all over my body. They broke 4 of my ribs and injured my heels.*

The victims were pricked and cut with knives.
Victim C3 testified as follows:

They pierced my ears and stabbed me all over my body with a knife.

During the interrogations there were also instances of death threats or threats of taking one’s life.

Victim C3 testified as follows:

At some point one of the Chechens came to me, showed me a bullet and said: “this will be your death tomorrow” […] I remember that in the room where I was interrogated, there was a dead body of a policeman. I remember that I was barefoot and I walked on blood.

Victim C10 testified as follows:

Two Russian journalists were invited inside (a cameraman and a female journalist). No sooner had they left when we got the news about the riots in Odessa, where some separatist supporters had been killed. They started beating me as if I was to blame.

The prisoners were not provided with professional medical care.

Victim C3 testified as follows:

After awhile they brought two drunk female physicians, who removed the bullet from my thigh with a knife and poured spirit over the wound.

One of the reasons for beating the prisoners by the perpetrators was the prisoners’ declaration of allegiance to Ukraine.
Victim C3 testified as follows:

> When I answered him that (...) I was born in Donetsk and Ukraine was my homeland, he started to beat me with a metal rod.

Prisoners

Political prisoners, clergy detained for pro-Ukrainian activities, criminals, drug addicts.

Conditions of detention

The prisoners were kept in dreadful sanitary conditions, in premises unfit for the purpose of holding prisoners.

Victim C25 testified as follows:

In the cellar in which they locked me there were approximately 20-30 people (...) We slept on wooden pallets made of eight centimetre planks with gaps between them which was very uncomfortable, specifically when one had injuries after the beating. In that cellar, there was one tap with water and one toilet.

Victim C39 testified as follows:

In the cells we slept on concrete on cartons or wooden pallets, while I slept on a door, on a mattress that was brought by the people from my orthodox church. We got food twice a day. For all cells there was one toilet that could be accessed from the corridor.

Crimes

Torture chambers were organised in the rooms adapted for the prison.
Victim C39 testified as follows:

The place where the prisoners were held was in the basement of a building in the former bomb shelter. It consisted of a corridor, rooms in which prisoners were held and which were entered from the corridor and one room in which a torture chamber was organized. It contained certain devices resembling those from the middle ages.

The prisoners were beaten every day during the interrogations; they were also often being humiliated.

Victim C25 testified as follows:

They immediately started asking me who I was praying for and when I responded for Ukraine and for peace and for the human souls, they started hitting me. They beat me with short and long clubs, with a stool which broke on my head and one of them, when I was lying on the floor, started to jump on my head. I managed to put my hands between my head and the concrete floor and probably that is the reason why my skull did not crack.

Victim C39 testified as follows:

For the first two days I was constantly abused and beaten. I was suspended from the ceiling by my hands cuffed at my back. I was also being suffocated with a plastic bag put on my head. When I started to choke and had to breathe in some air my head was put into a bucket of water and when I choked on the water and it got into my lungs I was suspended by the feet upside down and they beat me in the chest with batons until the water spilled out of me.
Staged and actual executions of prisoners were organised to exert mental pressure.

Victim C39 testified as follows:

Every day or night somebody was led out to be executed by firing squad. The executions were performed at the end of the corridor against the open armoured doors. During my captivity, I believe about 10 people were executed or beaten to death. I was first led out to be executed against the wall on the second day of my detention, that is on 9th August in the evening.

But it was just a simulation to scare me. The second time came, during the night between 10th and 11th August, I was taken in the trunk of a car into a field and placed next to a hole dug by an excavator standing nearby. I saw human bodies at the bottom of that pit.

Marks left after the beating, victim C39 [157]
The prisoners were also used to do some maintenance work.

> Each morning and evening we had to do push ups. During the day they took us to do some cleaning work and we also carried sand bags and put them in windows.

The prisoners were kept in the cellar unfit for the purpose of a jail, in rooms for one or many persons. The majority of the prisoners slept directly on the concrete floor. Most of the prisoners had either covered or taped eyes and their hands were bound with adhesive tape. For many days the prisoners were not taken to the toilet and thus they relieved themselves in the rooms where they were held, e.g. to bottles.

Victim C16 testified as follows:

We had two bottles in the basement – one with water, another for our urine. They made me starve for two days and I had to sleep on the floor.
The room in which the people imprisoned in the former building of the Security Service of Ukraine in Slavyansk [34] were tortured. Picture taken by the authors of the Report.

The prisoners were being deprived of food for several days in a row.

They gave us some soup and water. It was the first time in three days that we had something to eat and drink.

Victim C11 testified as follows:

*On that day, I was hit 26 times with the butt of an automatic rifle.*

The prisoners were also treated with Tasers used to inflict pain.

Victim C11 testified as follows:

*They were also beating us with their hands and legs and used Tasers to give electric shocks.*

There were instances of pricking the prisoners with a shoemaker’s awl on their legs or stomach and of cutting skin with a knife or of puncturing muscles.

Victim C5 testified as follows:

*They were beating me all the time during the interrogations, and stabbing my legs and my abdomen with a shoemaker’s awl. They also cut my finger to the bone with a knife.*

The prisoners were placed in uncomfortable positions for long periods.

Victim C1 testified as follows:

*I spent there 3 days, blindfolded and tied to the bottom of a chair.*

Prisoners

Prisoners of war.

Conditions of detention

Between 6 and 8 persons were kept in rooms designated for two. Every day the prisoners got oatmeal boiled with wheat and diluted with water, and one piece of dark bread.

Victim C22 testified as follows:

> After the interrogation, we were assigned to jail cells. 10 people were put to a cell where I was placed. Judging by the number of beds, the cell was designated for 2 prisoners only. Since there were only two beds, we took turns, while others used the floor.

Crimes

Every day, the prisoners were forced to clear debris and to bury the dead. The prisoners were used in a propaganda event to bury killed separatists, during celebrations at Savur-Mohyla [172].

The prisoners were threatened and some of them have been beaten.

Victim C21 testified as follows:

> Besides that, we were threatened with specific phrases, like: “I’ll gouge out your eyes”, “I’ll smash your hand bones”, “I’ll shoot you in the stomach and you will bleed to death”, “I’ll throw you into the swamp”, etc.

The prisoners were threatened; they were told that they could save their lives only if they joined the forces of the Donetsk People’s Republic.

Victim C21 testified as follows:

During our forced labours, the guard exerted moral pressure on the POW’s by threatening that their lives would be finished if they don’t switch to the side of the Donetsk People’s Republic.

Some prisoners were beaten by the guards with rifle butts.

Victim C21 testified as follows:

Some of the guards beat the prisoners with rifle butts

Certain other sophisticated punishment and tortures were also used with respect to the prisoners.

Victim C22 testified as follows:

There was a dismantled UAZ car in the courtyard, in front of the garage. The Donetsk People's Republic people chained a man, stripped to his underpants to that car. They told us that this would happen to anyone who did not obey their orders. We were also told that if anyone gave the man any water, that person would end up in his place.

Since it was very hot during the day, and the nights were already pretty cool, this man died after five days from dehydration, because he was given neither food, nor water. The man suffered before our very eyes, because we saw him every day when we left to do forced labour and in the evening, upon our return.
The prisoners were also used for propaganda purposes and those who refused to cooperate were punished.

Victim C22 testified as follows:

> During the work on the dismantling of a 4-storey residential building in front of the tax office, a white car with a sign on the door “OSCE” drove to us. About three people came out from the car, guarded by armed "Berkut" guards. I know that they had the sign "Berkut" on the back of their uniforms. I was approached by a journalist of the New York Times with an interpreter who helped in communicating with me.
The journalist asked why we were there, what were the conditions of our detention, how we were treated, and why I was forced to take part in the war. Since the questions were a provocation and aimed at discrediting Ukraine, I refused to answer them. Later, the "Oplot" [23] fighters who guarded us while we worked, started to threaten us. In the evening, after arriving back from work, I was beaten by the guards, who were present during the conversation with the journalist.

Prisoners

Soldiers of the Ukrainian Armed Forces.

Conditions of detention

The prisoners were kept in rooms unfit for the purpose of holding prisoners.

Crimes

The prisoners were taken to the territory of the Russian Federation and submitted to interrogation by employees of the Federal Security Service [136] of the Russian Federation.

Victim C27 testified as follows:

There were men in black balaclavas and military uniforms from the special divisions of the Russian FSB [136], because they had non-standard uniforms and shoes. We were questioned by an investigative committee, because the soldiers wore jackets with the inscription: “Investigative committee of the Russian Federation”, and they arrived by a car with an inscription “Investigative Committee of the Russian Federation”. They also had forms of interrogation reports used by the investigative committee.

In the course of the interrogations the interrogated persons were threatened and humiliated.
Victim C27 testified as follows:

During the questioning they asserted a variety of threats, like “if you won’t speak, we’ll announce you are a “Right Sector” representative and return you back to the separatists, they will kill you” (...) During the questioning they constantly threatened me with physical violence, severe torture, slow and painful death, and the same violence for my family later on (...) The interrogations were carried out by military men, among them were persons of Caucasian nationality. During the questioning they brandished their weapons, humiliated us morally, trying to persuade us to come over to their side.

Interrogations of the Ukrainian soldiers who were taken captive by Russian interrogators [179]

The interrogations were filmed and the prisoners were forced to speak to Russian television journalists in front of the camera. If they refused to speak as they were told, they were threatened and beaten.

179) The film was removed from the link https://www.youtube.com/watch?v=k5nHxsru0GE after the presented shot was made
Victim C27 testified as follows:

After we refused to talk to the Russian TV reporters, a few armed men in balaclavas came to us and took three of my colleagues. They were taken away in an unknown direction. I was interrogated throughout the night. They threatened me, humiliated me and didn’t let me eat, drink or sleep.

Victim C34 testified as follows:

During questioning several groups of Russian TV journalists arrived at the territory of the "Donetsk" checkpoint. We were forced to give the interview, all of us refused to do it. After we refused to communicate with the Russian TV reporters, two armed men in black uniforms and balaclavas came to me. I think they were representatives of the FSB [136], because they had unusual uniforms and footwear. They took me and my colleague. Later, they took us back to the Izvaryne [180] checkpoint.

That’s where these two soldiers in black uniform began to perform their interrogation of me. They said I must tell to the Russian reporters everything they order me to. I refused. They began beating me, in such a manner as to not leave any bruises marks. This was another indication they were professionals with the special services. They told me if I refused to give an interview to the Russian channels they will kill me and bury my body and nobody will ever find out my fate. Their threats were very realistic.
